Exam 2  
(CSE 573S)

Ken Wong  
Washington University

kenw@wustl.edu  
www.arl.wustl.edu/~kenw

Miscellaneous

- Wed, May 12, 330-530 PM, Whitaker 216
- Closed book, one 8.5" x 11" crib sheet
- Properties
  - Straightforward
  - Non-"forward leaning"
  - Like 0-point problems, Homeworks 4 and 5

Focus

- IP Basics
  - IP addresses (Nets, Subnets, Supernets)
  - Fragmentation
  - ARP
- Routing
  - Forwarding (route lookup) algorithm
  - Distance vector algorithm(s)
  - Link state algorithm
- TCP
  - Basics (slow start, congestion avoidance, fast retransmit, fast recovery, SYN, FIN) ... cwnd, ssthresh
  - RTT estimation, RTO
  - Congestion control

Secondary

- Secondary
  - Switching
  - ???
- Not
  - Exam 1 stuff
  - Programming
End
